 Nemo

**Nemo™ 4300 Flashlight**

Big brother to the [Nemo™ 4200](#), the Nemo 4300 is the ultimate dive light. The 4300 has an unbreakable ABS body with thermoplastic overmolded accents and polycarbonate lens. It uses a clever magnetic switch that operates outside of the body to prevent leaking. The switch can be easily removed for washing off sand and dirt. Pelican's unique battery compartment design allows for optimal space utilization and negative buoyancy. A spare Xenon lamp is included and stored underneath the reflector. Submersible to 500 feet and powered by 8 C alkaline cells.

**Minimum Pack 1 ea.**  
**Packaged Weight: 1.4 lbs.**
